COMMENTS FROM THE TOWN MANAGER'S OFFICE

Two large culverts have been purchased and delivered. One is to be installed at Songo Pond to replace the wooden bridge. The other is to replace a wooden bridge on the Grover Hill Road near the Whitman place.

The application of asphalt for this year has been completed. A penetration coat was applied to the new construction on the North West Bethel Road. A mulch job was applied to Lover's Lane, putting this road in first class condition.

Notice has been received from the Maine Forest Service that Dutch Elm Disease has been located in Bethel for the second year in succession. This year a diseased tree has been located on the property of Norman Hale at West Bethel.

The total cost of construction project on the N. W. Bethel Road was \$5,525.84, exclusive of applying the asphalt surface. This leaves a balance of \$795.46 in the Town Road Improvement Fund to be carried forward to 1960 work.

The balance in the Highway and Bridges account at the end of August was \$2,943.67. Truck Rental account \$5,023.91. Town Welfare, \$1,250.53. These balances in the Highway Dept. are somewhat greater than last year at the same time. The balance in the welfare account compares about the same. The Bank Stock Tax dropped \$563.03 which will reflect a deficit in the Miscellaneous account at the close of the year.

Sincerely,
Harold L. Bean

GEORGE L. HAINES

George Leander Haines of Bethel died Saturday morning at Augusta, after an illness of several years.

Born at Bethel, Feb. 29, 1876, he was the son of Fred Q. and Abbie Dolly Haines. He had lived most of his life in East Bethel, where he was engaged in farming. On March 7, 1903, he married the former Grace Swan who died Nov. 19, 1941.

For several years, Mr. Haines had made his home with his daughter, Mrs. Dorothy Abbott. Mr. Haines was a 25-year member of Alder River Grange and a past master of that Grange.

Survivors include two daughters, Mrs. Dorothy Abbott, Bethel, and Mrs. Bernice Noyes, East Bethel; two sons, Fred, East Bethel, and Edward, Bethel; 13 grandchildren and four great-grandchildren.

Funeral services were held Tuesday afternoon at the Greenleaf funeral home, Bethel. Rev. Clifford Laws officiating. Interment was at East Bethel Cemetery.

MRS. MARY J. GREIG

Mrs. Mary Jane Greig died at her home Monday evening after several months illness.

Born in Aberdeen, Scotland, April 4, 1881, she was the daughter of Donald and Helen MacGregor. Mrs. Greig was a resident of Bethel for the past 12 years, moving here from Boston. Her husband, the late William Greig, passed away in 1954. She was a member of Juanita Chapter, OES, Stonington.

Survivors include a son, Norman Greig, Bethel, and two grandchildren.

Funeral services were held this Thursday afternoon at the Greenleaf funeral home, Rev. Clifford Laws officiating.

When, a dozen years ago, the Greigs came to live in our village they soon made friends. Their sterling qualities, sincerity and keen sense of humor endeared them to all.

After the death of her husband, Mary Greig, no longer young, fought loneliness and bereavement and from choice, maintained her cheerful home. Her capable hands were ever busy and she always accomplished a good day's work.

With her neighbors she was popular. Her membership in the Ladies Club of West Parish Congregational Church was valued. She was proud of her family and adored her grandchildren and enjoyed their love and attention. Her son and daughter-in-law have given her every kindness and tender care.

The illness and pain of the last six months have been a grim ordeal for her physical courage and strong character, and so we say,

"Dear Friend, you will be released from the dreariness sleep where Heaven repays. The book of life is read, the last day dawns."

Miss Judy Van is at home for a two weeks vacation.

Imagine a truck ride so smooth and cushioned that fragile loads can travel the worst "wash-board" roads with ease. Imagine a truck ride that virtually eliminates shimmy and wheel fight, cuts side sway on curves, makes steering far steadier and easier, keeps drivers far fresher. Imagine a truck ride that permits higher safe cruising speeds, more trips per day with all kinds of cargo over every type of road surface. Imagine a ride that keeps up to 78% of all objectionable road shock and vibration from ever reaching the driver and cargo, a design that sharply reduces twisting and fatigue forces on chassis, cabs and bodies, that keeps trucks young for extra thousands of miles. / Soon you won't have to just imagine such a ride. You can try it for yourself in the trucks that do the next best thing to paving every road in America—new Chevrolet trucks for 1960. You'll see what happens when Chevy's truck engineers design a whole new line of trucks around a whole new kind of torsion-spring suspension. These trucks are new from the ride on up—with wonderfully roomier cabs, brawnier frames, style that's fresh as sixty and more! Don't decide on any new truck till you see the newest of all.

MOTOR MAIDS

High Humidity Causes Trouble

By Martha Johnson

Dodge Safety Consultant.

Getting the car to start promptly in a humid or wet day usually is more aggravating than serious.

The cause of poor starting on high humidity days often is the pumping of the gas pedal by the driver.

Instead of helping to start the car, pumping the gas pedal works just the opposite, having the same effect as over-choking or flooding the engine.

These tips may help in getting a prompt start on a humid or wet day:

Don't pump the gas pedal. Simply turn on the ignition key, hold the gas pedal all the way down to the floor, then step on the starter until the engine starts.

If the car has been kept in a closed garage overnight, open the hood to let the air circulate for a short time. Also, open garage doors and windows.

Possible mechanical causes of a no-start situation are many.

The trouble could range from a weak battery, coil, condenser or plugs, to worn out distributor points, a minute crack in the distributor cap, or oily, corroded and exposed wiring.
